

# Multisource feedback assessment form (Medical colleague)

Australian  
Medical Council Limited

Logo placement area

## Candidate and medical colleague assessor information

AMC candidate name		AMC candidate number	
Assessor name		Assessor position	

This Multisource feedback form assesses the following domains (multiple options can be selected):

History <input type="checkbox"/>	Physical Examination <input type="checkbox"/>	Management/Counselling <input type="checkbox"/>	
Clinical Judgement <input type="checkbox"/>	Communication Skills <input type="checkbox"/>	Working in a team <input type="checkbox"/>	Professionalism <input type="checkbox"/>
Cultural competence <input type="checkbox"/>		Patient safety and quality of care <input type="checkbox"/>	

Please record a rating for each criterion on the scale 1 (extremely poor) to 5 (extremely good). A score of 1-2 is considered below expected level, 3 at expected level and 4-5 above expected level, at the standard of an Australian graduate **at the end of PGY1**. The criteria where there are no **N/O** (*not observable in this encounter*) boxes are mandatory and must be rated for each assessment. Assessors should note that over all the encounters observed it is expected that all attributes are observed and scored at least once. Support all ratings with an explanation / example in the comments box.

## This doctor:

	Below expected level		At expected level	Above expected level		
1. Communicates well with patients	<input type="text" value="1"/>	<input type="text" value="2"/>	<input type="text" value="3"/>	<input type="text" value="4"/>	<input type="text" value="5"/>

## Multi-source feedback (MSF)

Multi-source feedback provides evidence on performance of a candidate from a variety of sources. These sources may include colleagues, other co-workers (nurses, allied health) and patients. Questionnaires completed by each of these groups assess a candidate's performance over time in contrast to a specific candidate encounter. MSF enables the assessment of proficiencies that underpin safe and effective clinical practice, yet are often difficult to assess including interpersonal and communication skills, team work, professionalism, clinical management and teaching abilities.
